

PRESS RELEASE

August 2009

WINTER GRILLING FUN

Belgian barbecue specialist barbecook is launching various new products that let you barbecue outdoors and indoors in the presence of an atmospheric fire, the whole year through. New products include the fireplace barbecue, the chestnut pan, carrier bags for woodblocks, and handy fireplace sets.

FIREPLACE BARBECUING

With the new fireplace grid from barbecook, you turn your fireplace into a barbecue that is eminently suited for roasting vegetables and low fat meat or fish over an authentic wood fire. This means you can now enjoy the most delicious dishes around your own fireplace. Weather permitting, you can of course also simply use the fireplace grid outdoors. The fireplace grid from barbecook has an adjustable grid and an ashtray. Recommended retail price: € 74.95.

ROAST CHESTNUTS

Soon you'll be able to find them again in woods and parks, but also at grocery stores: sweet chestnuts! They are delicious when prepared in the new chestnut pan from barbecook. The pan has holes in the bottom, and the chestnuts are roasted by shaking the pan occasionally over the flames of a fire basket or an open fire. Tip: first carve an 'X' in the top of the chestnuts with a sharp knife; this will allow the steam to escape, preventing the chestnuts from exploding. After they have roasted for 15 minutes, the hot chestnuts can be removed from the pan. Allow to cool briefly, peel and dig in! Recommended retail price: € 9.95.

NEW: WOOD CARRIER BAG AND FIREPLACE SET

Another barbecook novelty are the multifunctional carrier bags for woodblocks (or tools, magazines, blankets, etc.). Both practical and decorative, they are available in two sizes and in grey or brown. Recommended retail price: from € 9.95.

The barbecook product range now also includes a fireplace set consisting of a brush, shovel, poker and prongs. Not only convenient for the fireplace, but also when barbecuing outdoors. Available in black or grey. Recommended retail price: from € 34.95.
